ONTARIO, Calif., April 21, 2021 (GLOBE NEWSWIRE) -- CVB Financial Corp. (NASDAQ:CVBF) and its subsidiary, Citizens Business Bank (the "Company"), announced earnings for the quarter ended March 31, 2021.

CVB Financial Corp. reported net income of \$63.9 million for the quarter ended March 31, 2021, compared with \$50.1 million for the fourth quarter of 2020 and \$38.0 million for the first quarter of 2020. Diluted earnings per share were \$0.47 for the first quarter, compared to \$0.37 for the prior quarter and \$0.27 for the same period last year. The first quarter of 2021 included a \$19.5 million recapture of provision for credit losses as a result of the improvement in our economic forecast. The Company previously recorded a provision for credit losses of \$23.5 million in 2020, due to the severe decline in economic forecasts associated with the pandemic.

David Brager, Chief Executive Officer of Citizens Business Bank, commented, "Our first quarter results were greatly impacted by the release of most of the reserves for credit losses that were built up in 2020, as the forecasted impact of COVID-19 on the economy has significantly improved since last year at the beginning of the pandemic. I am extremely proud of our associates as we continue to support our customers with round two Paycheck Protection Program loans, by originating more than 1,500 loans for approximately \$325 million. In addition, we have processed customer forgiveness applications on round one PPP loans originated in 2020 totaling \$540 million at March 31, 2021."

Net income of \$63.9 million for the first quarter of 2021 produced an annualized return on average equity ("ROAE") of 12.75% and an annualized return on average tangible common equity ("ROATCE") of 19.85%. ROAE and ROATCE for the fourth quarter of 2020 were 9.92% and 15.67%, respectively, and 7.61% and 12.27%, respectively, for the first quarter of 2020. Annualized return on average assets ("ROAA") was 1.79% for the first quarter, compared to 1.42% for the fourth quarter of 2020 and 1.34% for the first quarter of 2020. Our net interest margin (tax equivalent) was 3.18% for the first quarter of 2021, compared to 3.33% for the fourth quarter of 2020 and 4.08% for the first quarter of 2020. The efficiency ratio for the first quarter of 2021 was 40.26%, compared to 40.64% for the fourth quarter of 2020 and 42.69% for the first quarter of 2020.

Net interest income before recapture of provision for credit losses was \$103.5 million for the first quarter of 2021. This represented a \$2.4 million, or 2.25%, decrease from the fourth quarter of 2020, and a \$1.2 million, or 1.14%, increase from the first quarter of 2020. Total interest income was \$105.5 million for the first quarter of 2021, which was \$3.1 million, or 2.87%, lower than the fourth quarter of 2020 and \$1.6 million, or 1.48%, lower than the same period last year. Total interest income and fees on loans for the first quarter of 2021 of \$91.8 million decreased \$3.9 million, or 4.11%, from the fourth quarter of 2020, and decreased \$322,000, or 0.35%, from the first quarter of 2020. Total investment income of \$13.1 million increased \$802,000, or 6.52%, from the fourth quarter of 2020 and decreased \$948,000, or 6.75%, from the first quarter of 2020. Interest expense decreased \$735,000, or 26.33%, from the prior quarter and decreased \$2.7 million, or 57.19%, compared to the first quarter of 2020.

During the first quarter of 2021, we recaptured \$19.5 million of provision for credit losses, due to the improvement in our economic forecast of certain macroeconomic variables, which were impacted by COVID-19. In comparison, there was no provision for credit losses recorded in the fourth quarter of 2020, while the first quarter of 2020 included a \$12 million provision for credit losses at the start of the pandemic. During the first quarter of 2021, we experienced credit charge-offs of \$2.5 million and total recoveries of \$88,000, resulting in net charge-offs of \$2.4 million.

Noninterest income was \$13.7 million for the first quarter of 2021, compared with \$12.9 million for the fourth quarter of 2020 and \$11.6 million for the first quarter of 2020. The first quarter of 2021 included \$3.5 million in death benefits that exceeded the asset value of certain BOLI policies, compared to \$1.6 million and \$715,000 in death benefits for the fourth quarter of 2020 and the first quarter of 2020, respectively. Swap fee income decreased \$661,000 quarter-over-quarter. Service charges on deposit accounts decreased by \$791,000, compared to the first quarter of 2020.

Noninterest expense for the first quarter of 2021 was \$47.2 million, compared to \$48.3 million for the fourth quarter of 2020 and \$48.6 million for the first quarter of 2020. The \$1.1 million quarter-over-quarter decrease included a \$649,000 decline in professional services, a \$616,000 decrease in occupancy and equipment expense, and a \$225,000 decrease in marketing and promotion expense. Offsetting these decreases in expense, was a \$564,000 increase in staff expense that was primarily the result of higher payroll taxes typically incurred in the first quarter of each year. The year-over-year decrease of \$1.5 million included a \$1.2 million decrease in salaries and employee benefit costs and an \$830,000 decline in marketing and promotion expense. An increase of \$911,000 in regulatory assessment expense in the first quarter of 2021, compared to the prior year quarter, resulted from the final application of assessment credits provided by the FDIC at the end of the second quarter of 2020. As a percentage of average assets, noninterest expense was 1.32% for the first quarter of 2021, compared to 1.37% for the fourth quarter of 2020 and 1.72% for the first quarter of 2020.

Net Interest Income and Net Interest Margin

Net interest income, before provision for credit losses, was \$103.5 million for the first quarter of 2021, compared to \$105.9 million for the fourth quarter of 2020 and \$102.3 million for the first quarter of 2020. Our net interest margin (tax equivalent) was 3.18% for the first quarter of 2021, compared to 3.33% for the fourth quarter of 2020 and 4.08% for the first quarter of 2020. Total average earning asset yields (tax equivalent) were 3.24% for the first quarter of 2021, compared to 3.41% for the fourth quarter of 2020 and 4.27% for the first quarter of 2020. The decrease in earning asset yield from the

prior quarter was due to a combination of a 6 basis point decline in loan yields, a 16 basis point decrease in investment yields and a change in asset mix with loan balances declining to 62.3% of earning assets on average for the first quarter of 2021, compared to 65.6% for the fourth quarter of 2020. Interest and fee income from Paycheck Protection Program (“PPP”) loans was approximately \$10.4 million in the first quarter of 2021, compared to \$10.5 million in the fourth quarter of 2020. The decrease in earning asset yield compared to the first quarter of 2020 was primarily due to a 45 basis point decrease in loan yields from 4.95% in the year ago quarter to 4.50% for the first quarter of 2021. The significant decline in interest rates since the start of the pandemic has had a negative impact on loan yields, which after excluding discount accretion, nonaccrual interest income, and the impact from PPP loans, declined by 44 basis points compared to the first quarter of 2020. The significant decline in interest rates also impacted the tax equivalent yield on investments, which decreased by 80 basis points from the first quarter of 2020. Earning asset yields were further impacted by a change in asset mix resulting from a \$1.38 billion increase in average balances at the Federal Reserve compared to the first quarter of 2020. Average earning assets increased from the fourth quarter of 2020 by \$560.3 million to \$13.29 billion for the first quarter of 2021. Of that increase in earning assets, \$523.4 million represented an increase in average investment securities, while balances at the Federal Reserve increased by \$115.7 million, and average loans declined by \$77.0 million. Average earning assets increased by \$3.17 billion from the first quarter of 2020. Loans on average grew by \$787.5 million from the first quarter of 2020, including PPP loan balances that were about \$881 million, on average, during the first quarter of 2021. Investments increased by \$977.2 million, while balances at the Federal Reserve grew on average by \$1.38 billion compared to the first quarter of 2020.

Total cost of funds declined to 0.07% for the first quarter of 2021 from 0.09% for the fourth quarter of 2020 and 0.21% in the year ago quarter. Noninterest bearing deposits grew on average by \$307.7 million, or 4.44%, from the fourth quarter of 2020, while interest-bearing deposits and customer repurchase agreements grew on average by \$130.5 million. The cost of interest-bearing deposits and customer repurchase agreements declined from 0.22% for the prior quarter to 0.16% for the first quarter of 2021. In comparison to the first quarter of 2020, our overall cost of funds decreased by 14 basis points, as average noninterest bearing deposits grew by \$1.99 billion, compared to \$932.1 million in growth in interest-bearing deposits, and the cost of deposits declined to 6 basis points in the current quarter.
