### Net Interest Income

Net interest income was \$111.6 million for the second quarter of 2025, representing a \$1.2 million, or 1.1%, increase from the first quarter of 2025, and a \$0.8 million, or 0.7%, increase from the second quarter of 2024. Interest income increased by \$1.2 million, or 0.84%, from the first quarter, while interest expense remained the same at \$32.6 million in the second quarter of 2025.

The increase in net interest income of \$0.8 million, or 0.7%, compared to the second quarter of 2024 was the net result of a \$15.6 million decline in interest expense, that exceeded the \$14.9 million decline in interest income. The decrease in interest expense was the result of a \$1.19 billion decrease in average interest-bearing liabilities compared to the second quarter of 2024. The decline in interest-bearing liabilities was driven by a decrease in borrowings that resulted from the early redemptions of Bank Term Funding Program ("BTFP") advances in the third quarter of 2024. The decrease in interest income was the result of a \$1.11 billion decrease in average interest-earning assets, that coincided with the Company's deleveraging strategy in the second half of 2024 resulting in the Company's borrowings declining by \$1.34 billion.

### Net Interest Margin

Our tax equivalent net interest margin was 3.31% for the second quarter of 2025, compared to 3.31% for the first quarter of 2025 and 3.05% for the second quarter of 2024. The yield on our interest-earning assets for the second quarter of 2025 remained unchanged, at 4.28%, compared to the prior quarter, while our cost of funds decreased slightly to 1.03% for the second quarter of 2025, from 1.04% in the prior quarter. Loan yields remained unchanged for the second quarter of 2025 at 5.22%. The slight decrease in our cost of funds was primarily due to a two-basis point decrease in our cost of deposits, from .86% to .84%. The decrease in cost of deposits was partially offset by an increase in the average balance and cost of customer repurchase agreements. For the second quarter of 2025 average customer repurchase agreements were \$376.6 million at a cost of 1.66%, compared to \$317.3 million and 1.24% for the prior quarter.

Net interest margin for the second quarter of 2025 increased by 26-basis points compared to the second quarter of 2024, primarily as a result of 35-basis point decrease in cost of funds, to 1.03% for the second quarter of 2025, from 1.38% in the same quarter of last year. The decrease in cost of funds was primarily due to a \$1.34 billion decline in average

borrowings, which had an average cost of 4.79% in the second quarter of 2024. For the second quarter of 2025, the Company had average deposits and customer repurchase agreements of \$12.18 billion, at an average cost of 0.87%, and average borrowings of \$508.2 million, at an average cost of 4.61%, compared to the second quarter of 2024 in which borrowings averaged \$1.85 billion, at an average cost of 4.79%, and average deposits and customer repurchase agreements of \$12.17 billion had an average cost of 0.87%. The decrease in cost of funds, exceeded the modest decrease in interest earning asset yields from 4.37% for the second quarter of 2024 to 4.28% in the second quarter of 2025. The decrease in earning asset yields was impacted by a decrease in loan yields from 5.26% for the second quarter of 2024 to 5.22% for the second quarter of 2025, and a decrease in investment securities yields to 2.62% in the second quarter of 2025, from 2.71% for the second quarter of 2024. The decrease in investment yields was primarily the result of a \$2.8 million decrease in the positive interest spread on pay-fixed swaps.

### Earning Assets and Deposits

Average earning assets increased by \$1.7 million compared to the first quarter of 2025 and declined by \$1.12 billion when compared to the second quarter of 2024. The average balance in funds held at the Federal Reserve increased by \$170.5 million in the second quarter of 2025 compared to the first quarter of 2025, while average loans decreased by \$112.6 million and average investment securities decreased by \$61.3 for the same period. Compared to the second quarter of 2024, the decrease in average earning assets was due to decreases of \$376.7 million in average loans, \$359.5 million in average investment securities, and \$372.1 million in funds held at the Federal Reserve. The average balance on noninterest-bearing deposits increased by \$45.3 million, or 0.65%, from the first quarter of 2025 and the average balance on interest-bearing deposits and customer repurchase agreements decreased by \$51.2 million from the same period. Net charge-offs for the second quarter of 2025 were \$249,000 compared to net recoveries of \$130,000 in the prior quarter. Noninterest income was \$14.7 million for the second quarter of 2025, compared with \$16.2 million for the first quarter of 2025 and \$14.4 million for the second quarter of 2024. Noninterest income decreased in the second quarter of 2025 compared to the first quarter primarily due to a \$2.2 million gain recognized during the first quarter of 2025 on the sale of four OREO properties. Excluding gains, noninterest income grew by approximately \$700,000, including a \$397,000 increase of income from Bank Owned Life Insurance ("BOLI"). BOLI income also increased in the second quarter of 2025 compared to the second quarter of 2024 by \$285,000. Compared to the first quarter of 2025, Trust and investment services income grew by \$304,000, or 8.9%, while growing by \$287,000, or 8.4% over the second quarter of 2024.

### **Noninterest Expense**

Noninterest expense for the second quarter of 2025 was \$57.6 million, compared to \$59.1 million for the first quarter of 2025 and \$56.5 million for the second quarter of 2024. Noninterest expense decreased in the second quarter of 2025 compared to the first quarter of 2025 primarily due to a \$500,000 provision for unfunded loan commitments in the first quarter of 2025 and a \$1.5 million decrease in salaries and benefits. The decrease in staff expense was primarily due to higher payroll taxes in the first quarter, resulting in a \$1.2 million decrease in the second quarter of 2025.

The year-over-year increase in noninterest expense of \$1.1 million, includes the impact of a \$500,000 expense reduction in the second quarter of 2024 related to a decrease in reserves for unfunded loan commitments and a \$603,000 increase in regulatory assessment expenses. The increase in regulatory assessment expenses in the second quarter of 2025 was due to a \$700,000 reduction of an FDIC special assessment accrual in the second quarter of 2024. As a percentage of average assets, noninterest expense was 1.52% for the second quarter of 2025, compared to 1.58% for the first quarter of 2025 and 1.40% for the second quarter of 2024. These forward-looking statements are based on management’s current expectations and beliefs concerning future developments and their potential effects on the Company including, without limitation, plans, strategies, goals and statements about the Company’s outlook regarding revenue and asset growth, financial performance and profitability, capital and liquidity levels, loan and deposit levels, growth and retention, yields and returns, loan diversification and credit management, stockholder value creation, tax rates, the impact of business, economic, or political developments, the impact of monetary, fiscal and trade policies, and the impact of acquisitions we have made or may make. Such statements involve inherent risks and uncertainties, many of which are difficult to predict and are generally beyond the control of the Company, and there can be no assurance that future developments affecting the Company will be the same as those anticipated by management. The Company cautions readers that a number of important factors, in addition to those set forth below, could cause actual results to differ materially from those expressed in, or implied or projected by, such forward-looking statements.

General risks and uncertainties include, but are not limited to, the following: the strength of the United States economy in general and the strength of the local economies in which we conduct business; the effects of, and changes in, immigration, trade, tariff, monetary, and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System; inflation/deflation, interest rate, market and monetary fluctuations; the effect of acquisitions we have made or may make, including, without limitation, the failure to obtain the necessary regulatory approvals, the failure to achieve the expected revenue growth and/or expense savings from such acquisitions, and/or the failure to effectively integrate an acquisition target and key personnel into our operations; the timely development of competitive products and services and the acceptance of these products and services by new and existing customers; the impact of changes in financial services policies, laws, and regulations, including those concerning banking, taxes, securities, and insurance, and the application thereof by regulatory agencies; the effectiveness of our risk management framework and quantitative models; changes in the level of our nonperforming assets and charge-offs; the transition away from USD LIBOR and uncertainties regarding potential alternative reference rates, including SOFR; the effect of changes in accounting policies and practices or accounting standards, as may be adopted from time-to-time by bank regulatory agencies, the U.S. Securities and Exchange Commission (“SEC”), the Public Company Accounting Oversight Board, the Financial Accounting Standards Board or other accounting standards setters; possible credit related impairments or declines in the fair value of loans and securities held by us; possible impairment charges to goodwill on our balance sheet; changes in customer spending, borrowing, and savings habits; the effects of our lack of a diversified loan portfolio, including the risks of geographic and industry concentrations; periodic fluctuations in commercial or residential real estate prices or values; our ability to attract or retain deposits or to access government or private lending facilities and other sources of liquidity; the possibility that we may reduce or discontinue the payment of dividends on our common stock; changes in the financial performance and/or condition of our borrowers; changes in the competitive environment among financial and bank holding companies and other financial service providers; technological changes in banking and financial services; geopolitical conditions, including acts or threats of terrorism, actions taken by the United States or other governments in response to acts or threats of terrorism, and/or military conflicts, which could impact business and economic conditions in the United States and abroad; catastrophic events or natural disasters, including earthquakes, drought, climate change or extreme weather events that may affect our assets, communications or computer services, customers, employees or third party vendors; public health crises and pandemics, and their effects on the economic and business environments in which we operate, including on our asset credit quality, business operations, and employees, as well as the impact on general economic and financial market conditions; cybersecurity threats and fraud and the costs of defending against them, including the costs of compliance with legislation or regulations to combat fraud and cybersecurity threats; our ability to recruit and retain key executives, board members and other employees, and our ability to comply with federal and state in employment laws and regulations; ongoing or unanticipated regulatory or legal proceedings or outcomes; and our ability to manage the risks involved in the foregoing.

Additional factors that could cause actual results to differ materially from those expressed in the forward-looking statements are discussed in the Company’s 2024 Annual Report on Form 10-K filed with the SEC and available at the SEC’s Internet site (<http://www.sec.gov>).

The Company does not undertake, and specifically disclaims any obligation, to update any forward-looking statements to reflect occurrences or unanticipated events or circumstances after the date of such statements, except as required by law. Any statements about future operating results, such as those concerning accretion and dilution to the Company’s earnings or shareholders, are for illustrative purposes only, are not forecasts, and actual results may differ.
